

IN NORTH TOPEKA

Corn and Wheat Fields Damaged Near Kiro.

Dikes Alay the Fears of Timid Residents.

Corn and wheat fields in the vicinity of Menoken, Kiro and Silver Lake are reported to have suffered from the rain Thursday night. The township drainage ditch, which is sixteen feet wide and in normal times is sufficiently large to cope with the rainfall in this locality could not handle the water rushing down from the hills. The fields as far west as Kingsville, adjacent to the drainage ditch, are flooded.

The largest amount of damage done is to the corn, which is badly washed and will either have to be replanted or the fields must be sown with other grain. The wheat is thought to be little damaged. One farmer who has sixty acres that was overflooded lost only five acres. Where the water runs off immediately little damage is done.

Kept Officers Busy.
The crowds on the Melan bridge Friday night kept the police officers busy. Two men were stationed at the north end of the bridge and one at the south to keep the traffic moving. Seeing the people reminded one of a busy corner in a metropolis. No matter how high the water gets when the sun shines it attracts but little attention. But if the river rises and the sky is cloudy one finds a general assortment of persons at the bridge watching the government river gauge.

May Petition City.
There is some talk among residents living on North Jackson and Central avenue of petitioning the city to enlarge the sewers in that locality. After a heavy rain the sewer system is entirely unable to handle the water and as a result in some instances the water flows into yards from the street and seeps into the cellars through the windows.

Use Union Pacific Road.
Friday, the three other railroads running into Topeka used the Union Pacific road for their trains. The Rock Island used the Union Pacific from Manhattan to Topeka and the Santa Fe and Missouri Pacific came in from the east over the U. P. tracks.

Dikes Alay Fears.
The fears of those living in North Topeka have been put to rest since the receding of the high water. The dikes proved capable of taking care of any high water that might come down the river. While a real test was not made this time, it showed what could be expected of the dikes in a crisis. The only place the dikes were tested was west of town. At one place the water rose two feet on the dikes.

Among the Churches.
Children's day will be celebrated at the North Topeka churches Sunday, June 13. Exercises will be given by the children of the Sunday schools and most of the pastors have arranged sermons of especial interest to the little ones.

SHOW OPENS MONDAY

Brundage Outfit in North Topeka for One Week.

The S. W. Brundage shows, which are to exhibit in Topeka for one week beginning Monday, June 14, will arrive here by special train Sunday afternoon. The various shows, attractions and riding devices are to be assembled on the ground on North Kansas avenue opposite Garfield park. For the past three days workmen have been engaged in putting the grounds in condition to receive the shows. The site is an excellent one and is well sodded.

The Brundage shows come to Topeka well recommended. This is the sixteenth season this organization has been on the road. The concern is strictly a Kansas institution, the headquarters being in Leavenworth. The Brundage shows are complete in every detail and wherever the shows have exhibited they have made a favorable impression. Mr. Brundage claims his shows have "passed the pure show laws," and his one endeavor, according to his advance representatives, is to give the public clean and moral amusement.

Leon W. Marshall's Happy Days in Dixieland is the featured attraction being presented by Mr. Brundage. Thirty-five persons, all declared to be capable performers, make up the cast. This one attraction carries its own band and orchestra. The Miraculous, the Mexico revolution, the auto and motorcycle, \$20,000 carry-us-all, ferris wheel and other attractions make up one of the most complete organizations of its kind that has ever visited Topeka.
